### RégimA PEEL & HEAL SKIN TREATMENTS (60 min)

**RégimA Peel & Heal Skin Treatment** has a unique action and cannot be compared to any other peel whether natural or chemical. The RégimA Peel & Heal Treatments are safe to do all year round – even in summer.

One starts the process of removing the outer dead layer of skin. This is the layer that gives us wrinkles, pigmentation, sun spots, age spots, everything that retards rejuvenation. The Peel & Heal successfully and very safely, works through the outer dead layer and down to the basal living layer. It stimulates collagen production, re-elasticizing and rejuvenating even the most damaged, scarred, sun damaged or ageing skins.

The RégimA formula helps to thicken the skin, making it much more youthful and healthy and less prone to cell changes. It contains an abundance of skin and scar healing ingredients blended with only pure, natural, unadulterated, unbuffered acids.

Although the Peel & Heal is potent it is still very easily tolerated and one does not have to experience a major peeling to reap the full benefit. The secret is always in the formulation.

With regular peels the skin becomes firmer, smoother, even in colour and texture.

*Peel & Heal only for clients that uses the RégimA home care products.*

### RégimA PEDI PEEL TREATMENT

The PEDI PEEL treatment removes the outer horny layer of skin on the feet. It assists in healing of the skin and is anti-bacterial. The PEDI PEEL treatment can assist in the removal of solar keratosis and sun spots. Hydration levels of the skin are improved. Diabetics and clients with skin ulcers should take special care with this treatment. The treatment consists of the application of the PEDI PEEL solution, exfoliation, filing of the feet and application of a foot moisturizer. **NO NAIL PAINT INCLUDED**

### RégimA PEDI PEEL & CREAM (30min) **R 325**

The first time PEDI PEEL client will benefit from this as they will receive a FOOTSY 100ml foot cream together with the treatment to assist in the removal of dead skin cells after the peeling treatment as a home care treatment.

### GELISH NAIL TREATMENT

**Longer lasting than nail varnish, but without the damage of gel nails. A new varnish that is applied like a normal nail varnish and then cured under a LED light. Completely dry when leaving.**

**The nails can last up to 3 weeks**

The LED light contains no UV, therefore no damage/ageing to the hands. The LED light is also much quicker than a UV light. 30 seconds per curing in comparison with 2 minutes under a UV light. The nails are soaked off by a special solution that is moisturizing and will not harm the nails.

**GELISH PAINT 'N GO (Hands or Feet) **R 180****

No treatment, only file or cut of nails, paint of the GELISH nail varnish.

**GELISH MANICURE (60 min) **R 280****

Exfoliation, cuticle treatment, nail shaping, buffing, massage, GELISH nail varnish

**GELISH PEDICURE (60+ min) **R 315****

*Note:* If you have never had a tint before it is advised to do a patch test first to see if any reaction occurs.

- ❖ Brow Tint & Shape **R 60**
- ❖ Brow Tint only **R 45**
- ❖ Lash Tint **R 80**
- ❖ Tint & Shape (all inclusive) **R 120**

## WAXING

The De Burgo PhD Waxing System is used for all leg, arm and back waxes. This unique system is very hygienic because a new disposable applicator is used for every client. The wax that is in touch with the client won't go back in the tube. The temperature of the wax is always stable and will never be too hot. A toffee type Hot Wax is used for all other areas of waxing where the hair is more stubborn.
