RégimA PEEL & HEAL SKIN TREATMENTS (45 - 60 min)

RégimA Peel & Heal Skin Treatment and Zone Power Peel has a unique action and cannot be compared to any other peel whether natural or chemical. The RégimA Peeling Treatments are safe to do all year round – even in summer.

One starts the process of removing the outer dead layer of skin. This is the layer that gives us wrinkles, pigmentation, sun spots, age spots, everything that retards rejuvenation. The Peel & Heal/Power Peel successfully and very safely, works through the outer dead layer and down to the basal living layer. It stimulates collagen production, re-elasticizing and rejuvenating even the most damaged, scarred, sun damaged or ageing skins.

The RégimA formula helps to thicken the skin, making it much more youthful and healthy and less prone to cell changes. It contains an abundance of skin and scar healing ingredients blended with only pure, natural, unadulterated, unbuffered acids.

Although the Peeling Treatments are potent it is still very easily tolerated and one does not have to experience a major peeling to reap the full benefit. With regular peels the skin becomes firmer, smoother, even in colour and texture.

Peel & Heal only for clients that uses the RégimA home care products except *
